SPS Group provide a huge range of services to clients working in a variety of sectors across the UK. Each service is tailor-made to suit the needs of every business we work with.

ABOUT US

We are an SSAIB accredited installer, and are bound by guidelines set out by the SSAIB Governing Board for install, documentation and commissioning.

Intruder Alarm

and CCTV Systems

**PROTECTING
YOU, YOUR
ASSETS
AND YOUR
PROPERTY**

The SPS Control Centre is home to over 25 LCD monitors and is manned 24 hours a day, 365 days a year, by our highly trained CCTV Monitoring team.

Our 24 Hour Control Room is the eyes and ears of our operations.

As part of our services we install, monitor and maintain CCTV. CCTV is a proven vital element of security and helps

a business to protect its people, assets and property.

Our highly experienced engineers are expertly trained in all aspects of installing and commissioning CCTV systems. Additionally we provide support and advice to meet all customer requirements, and pride ourselves on unrivalled customer care and after-sales support.

SPS Technical offer a full range of security systems and services, including: CCTV Systems, Fire Systems, Intruder Alarm Systems, Access Control Systems, 24 Hour CCTV Monitoring, CCTV Maintenance, PA and Audio Systems, Security and Emergency Lighting.

Our intruder alarm solutions can meet all requirements and range from small domestic stand-alone systems to monitored intruder systems. We provide fully wired or wireless solutions from the first fixing stage to complete installation and commissioning.

We can also take over existing systems, which can often be a more cost-effective option if you want to change your provider but retain the original system (subject to the condition of your current system and your current contract obligations).

Here at SPS we offer full servicing, maintenance and repair packages for your security systems.

Our highly experienced Intruder Alarm and CCTV maintenance engineers can identify and rectify issues at an early stage through monitoring systems at our 24-hour Control Room and through regular maintenance checks. Intruder systems are serviced once or twice per annum, dependant on the nature of the business involved and the grade of system. We have the resources, including spare parts, system knowledge and documentation to comply with SSAIB accreditation.

GROUP SERVICES

Our clients benefit on multiple levels from our integrated approach. With a diverse package spanning the facilities management chain, SPS Group is uniquely suited to aid and improve your business.

We manage your requirements through the entire life cycle of your service package. Development, delivery, updates and support. We're with you from the very start, delivering the services you need at a time of day that suits you.
